## Be the Digital Orthodontist: Learn to 3D Surf

This course will focus on the benefits of digital workflow and the efficiency that it can bring to your office.

### Course Objectives:

- ✓ Identify efficiency benefits in transitioning to a fully digital practice.
- ✓ Learn how to employ a digital workflow with a 3D setup for a rapid finish, improved efficiency, and reduced time in fixed appliances.
- ✓ Explore how a digital brand can lead to increased referrals, exceptional results and differentiating your practice.
- ✓ Review case examples that demonstrate the benefits of a digital practice.
- ✓ Principles of custom aligners: how to plan for a great finish.

### About the Speaker

**Christian Kenworthy, DDS, MS** attended Brigham Young University for his undergraduate education. He received his BDS and DDS degrees from the University of California at San Francisco, and his orthodontic certificate and a Master's degree from the Mayo Graduate School of Medicine. His writings have been published in the Journal of Orofacial Pain, the Journal of Prosthetic Dentistry, the European Journal of Orthodontics, and the American Journal of Orthodontics and Dentofacial Orthopedics. He is an active member of the American Association of Orthodontists, completing his term as president of the Rocky Mountain Society of Orthodontists in 2016. His interests focus on efficiency and accuracy. His office has been impression-free since 2014. He is immersed in digital orthodontics and enjoys discussing Class III cases. Dr. Kenworthy's Missoula, Montana practice supports his wife, and their five boys.
